TOGETHER FOR CHANGE

Next Gen Charter

Next Gen is a youth-led volunteer organisation inspired by the values of Edmund Rice. We provide practical outreach and service within our local communities, fostering cooperation, leadership, and personal growth. Through meaningful action and reflection, we empower young people to stand for justice, learn about social issues, and become compassionate leaders who bring hope and positive change to the world around them.

Core Values

Service: *We commit to practical action that responds to real needs in our communities, following the example of Edmund Rice in serving with compassion.*

Justice: *We learn about and act upon issues of inequality and injustice, raising awareness and standing in solidarity with those whose voices are not heard.*

Community: *We build a spirit of cooperation, inclusivity, and belonging where every young person is valued and supported.*

Leadership *We encourage and nurture the gifts of each participant, empowering young people to take initiative, inspire others, and grow into leaders for change.*

Reflection & Learning: *We take time to reflect on our experiences, deepen our understanding of social justice, and connect our actions to a wider vision of hope and dignity for all.*

Hope: *We believe in the power of young people to create a more just, compassionate, and sustainable future.*

central base:

**Edmund Rice House
St Edward's College
North Drive, Liverpool L12 1LF**
